MOHAMED THARIK

Chennai, India | mohamedtharik1508@gmail.com | +91 63826 50792 | LinkedIn | GitHub

Summary

Full-Stack Web Developer experienced in building scalable web applications using React.js, Next.js, Node.js, Express.js, MongoDB, and Firebase. Strong in REST API development, responsive UI engineering, cloud integrations, and real-time systems. Delivered production-quality features, optimized performance, and automated workflows through CI/CD and Git. Skilled in developing AI chatbots, IoT dashboards, and data-driven analytics. Completed 1000+ coding challenges, demonstrating strong algorithmic and problem-solving skills.

Skills

Languages: JavaScript (ES6+), C++, Python, HTML5, CSS3
Frontend: React.js, Next.js, Redux Toolkit, Material UI, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs, Authentication (JWT/OAuth)
Databases: MongoDB, MySQL, Firebase (Firestore, Realtime DB)
DevOps & Tools: Git, GitHub, Docker, GitHub Actions, Postman, Vite
Additional: AI Chatbots, Real-Time Tracking, Google Maps API, Dashboard Analytics

Professional Experience

Full-Stack Web Development Intern
VEI Technologies Pvt Ltd, Chennai

- Developed scalable full-stack applications using React.js, Next.js, Node.js, Express.js, and MongoDB, ensuring 98% API uptime.
- Reduced API response time by 30% through optimized backend queries and improved caching.
- Designed reusable UI components and improved frontend load times by 20% using performance optimization techniques.

Projects

Connected Mobility – IoT Vehicle Monitoring Dashboard

- Developed a real-time vehicle monitoring dashboard using React.js and Firebase for EV and petrol fleets.
- Processed 10,000+ daily telemetry data points including battery, tire pressure, and engine temperature.
- Reduced fleet downtime by 20% using predictive analytics and automated issue detection.
- Integrated Google Maps API for live tracking, geofencing, and route efficiency analysis.

AI-Enabled Food Delivery Platform

- Built a full-stack food ordering system using React.js, Node.js, Express.js, and MongoDB.
- Integrated an AI chatbot to automate customer support, reducing manual response time by 30%.
- Designed high-throughput REST APIs supporting 1,000+ daily transactions.
- Improved frontend rendering speed and reduced average load time by 25%.

Gym Management Website

- Developed a membership and workout management portal using React.js and REST APIs.
- Enhanced UI/UX and optimized performance, improving engagement by 25%.
- Implemented state management and responsive layouts for seamless multi-device usage.

Achievements

- Solved 1000+ coding problems on Skillrack, improving mastery of algorithms and data structures.
- Certified Full-Stack Web Developer (Udemy, 2024).
- Runner-Up at SYNSARA National Level TechFest for innovative tech solutions.

Education

Sri Sairam Engineering College, Chennai
B.E. Computer Science and Engineering — CGPA: 7.24
Key Subjects: Data Structures & Algorithms, Web Development, Database Systems, Artificial Intelligence

SS Government Higher Secondary School, Chennai
Higher Secondary Education — 73.50%
